

Foundation Studies

Rudolf Steiner was born in the small village of Kraljevec, Austria (now in Croatia) in 1861 and died in Dornach, Switzerland in 1925.

In university, he concentrated on mathematics, physics and chemistry. Having written his thesis on philosophy, Steiner earned his doctorate and was later drawn into literary and scholarly circles and participated in the rich social and political life of Vienna.

The Waldorf school movement originated with a school Steiner developed for the children of factory employees at the Waldorf-Astoria cigarette factory in Stuttgart, Germany. Today, Waldorf schools are all over the world. There are homes, schools and village communities for children and adults with special needs. Biodynamic agriculture began with a course of lectures requested by a group of farmers concerned about the destructive trend of "scientific" farming. Steiner's work with doctors led to a medical movement that includes clinics, hospitals and various forms of therapeutic work. As an art of movement, eurythmy also serves educational and therapeutic work.

ADULT ENRICHMENT PROGRAMS

Foundation Studies

Waldorf School of Orange County's program of Foundation Studies is a two-year program which will enable participants to

continue for a further two years with the WSOC Adult Education Program, if desired. Courses in Anthroposophy and Waldorf Education are the two main areas of study, supported by intense artistic work. Some further courses will include a Biography Workshop, a Painting Workshop, Art History, Parzival and others.

The program, which began in 2009, is directed by Chris Bennett, who joined the faculty of WSOC in September 2009 and is the former Director of Kula Makua, The Honolulu Waldorf Teacher Training Program. and instructor at the London Waldorf Teacher Training Seminar (UK) for many years before that. Faculty members from WSOC will be supporting this program in addition to guest teachers from the wider Anthroposophical movement.
