WSOC celebrates the riches of a child's imagination. In our Early Childhood camp, simplicity is key. Toys are crafted of natural materials and feature beautiful colors and textures to encourage, but not overstimulate, the senses. There is a rhythm each day. We are helping your child build a strong foundation from the ground up. A Waldorf classroom is a sanctuary honoring the notion that a child's play is her truest work.

"Play is the royal road to childhood happiness and adult brilliance." - Joseph Chilton Pearce

Bugs. They're everywhere around us, often unseen in their natural realm. Pests. Creepy crawlers. Insects. They dominate global animal biodiversity in terms of biomass, species numbers and total population numbers, outweighing humanity by 17 times. They are the most varied and abundant animals. They are crucial to ecosystems, providing services such as pollinating flowers, decomposing dead organisms and waste, and forming crucial links in food webs.

Join us as we create bug houses and dye cloth with bugs. This is the place for all *entomophiles*. Bug lovers, rejoice!
